

# Lin IELTS Basic Speaking Feedback

## Speaking Score

### Fluency and Coherence 6

Lin, you're generally able to keep talking without long pauses, which is great! However, there are a few hesitations and repetitions, like when you said "navigate navigate." Your coherence is a bit affected by occasional pauses and self-corrections, especially mid-sentence (e.g., "It is um work it worked it works through the magnetic gravity..."). Your speech is mostly cohesive, but sometimes the logical flow and topic development could be smoother, especially when linking your invention to broader historical impacts.

### Lexical Resource: Band 4

Your vocabulary is on the basic side, Lin, and sometimes you use words inaccurately, like "magnetic gravity of the globe" and "sails across the whole Antarctic ocean." It's wonderful that you're trying to use more complex words and phrases, but these attempts often lead to errors. Also, you could improve your paraphrasing skills to avoid repeating the same words and phrases.

### Grammatical Range and Accuracy: Band 4

There are quite a few grammatical errors in your response, including inconsistencies with tenses like "it is work it worked it works," incorrect word forms such as "souths direction," and problematic sentence structures. You do use basic sentence forms correctly, but complex structures tend to be incorrect. These frequent errors sometimes make it hard to understand what you're trying to say.

### Pronunciation 5

There are some mispronunciations that affect clarity. Your pronunciation is influenced by your native accent, which causes occasional misunderstandings. Your general intonation is good. The speed of speaking also makes it easier to understand what you are saying. The biggest issues are individual sounds.

### Overall Band Score

Considering your performance across all four criteria, your overall band score for this speaking performance is 5.

## Detailed Feedback

**Fluency and Coherence:** Try to reduce hesitations and improve the logical flow of your ideas. Practice speaking continuously without self-correcting mid-sentence.

**Lexical Resource:** Work on expanding your vocabulary, especially with less common and idiomatic expressions. Practice paraphrasing and using new vocabulary accurately.

**Grammatical Range and Accuracy:** Pay attention to subject-verb agreement and tense consistency. Practice constructing complex sentences without errors.

**Pronunciation:** Focus on pronunciation clarity and reducing the influence of your native accent. Use stress and intonation to convey meaning more effectively.

Improving these areas will help you achieve a higher band score in the IELTS Speaking test. Keep practicing, Lin you can do this.
